Compact Score Sheet

HOUSE RULES AGREED

Counting your Card Points

Before you count. Push everything your side captured into one pile, your tricks and your discards, just you if you played alone. Talon cards nobody took count for the defenders.

- Count the cards in the pile, then divide by three and round to the nearest whole number. That is your **base count**.
- Go through the same pile and add up the pips printed along the card sides. That is your **pip count**.
- Add the two counts together. That is your side's Card Points.

Signed ledger: the Declarer's side climbs on a win and falls on a loss. Only their column takes a number. Dodge Round: everyone writes.

Moon lost? That player alone writes minus 4. Nothing doubles it.

CON Contract points, made or failed
BON Bonus points
VP Victory Points, what goes on the running total
B/F Brought forward from your last sheet
O a radl, one circle per doubling token

Winner
